REPORT OF BOARD OF HEALTH.

There have been but few contagious diseases in town the past year, two cases of diphtheria, and one of measles.

The sanitary condition of the town in general is very good, but the Board would respectfully call the attention of the School Board to the condition of some of the out houses of the district schools.

It is hoped that every citizen in town will carefully read the following laws:

ARTICLE 1. "Every physician practising medicine in this state shall report at once to the local board of health every case of cholera, small-pox, typhus fever, yellow fever, diphtheria, membranous croup, scarlet fever, typhoid fever, and measles, coming under his care or observation.

ART. 2. "Whenever any householder knows or has reason to believe that any person within his family or household has either of the diseases named in article 1, he shall, within twenty-four hours, if no physician is in attendance, give notice thereof to the local board of health of the town or city in which he resides, and such notice shall be given, either verbally to one of the health officers or by a communication addressed to the board of health and duly mailed, within the time specified."

ART. 12. Any person or corporation violating the rules and regulations issued by the state board of health, shall be subject to a fine of not more than two hundred dollars, or be imprisoned not more than six months, or both ; and it shall be the duty of any person to whom a knowledge of such violation may come, to notify the state board of health.

REPORT OF THE SCHOOL BOARD.

The School Board respectfully presents the following brief report :

Teachers and pupils have done very satisfactory work during the past year, except in the matter of regularity and promptness in attendance on the part of the pupils of some of the schools. An inspection of the statistical table in this report will show that the average attendance was small and the amount of tardiness was large in some of the schools. This is a serious evil and can be remedied only by the co-operation of parents with the teachers, scholars and school board, and it is hoped that during the coming year all will work together to secure a full and prompt attendance at every school session.

Heretofore pupils have been required to complete the course of study embracing the so called common English branches in eight years, too short a period for a child to devote to the acquirement of an education if he is compelled to leave school upon the completion of the Grammar grades, and not long enough to fit him thoroughly for entering an academy or high school. A child entering the primary school at the age of five years, would, if regularly promoted each year, be compelled to leave school at the age of thirteen. To remedy this the school board has during the past year prepared and adopted a course of study covering nine years,

and when the grades have been adjusted to the new course, it is believed that graduates of our common schools will have acquired a thorough knowledge of the common school studies and will be prepared to enter an academy or high school.

Under the terms of the contract made with the Trustees of Pinkerton Academy, tuition at the rate of fifteen dollars per year was paid for thirty-three and one sixth pupils. By the law passed at the last session of the legislature, the town will hereafter appropriate the money for this purpose.

Acting under the authority given at the last District school meeting the school board sold to Mrs. Viola A. Barnett a triangular tract of land from the West Side school lot, thirty-six feet wide on the street and extending back about seven rods for the sum of fifty dollars, which is now in the hands of the treasurer. An article is inserted in the warrant for the school meeting of the present year, to see if the District will authorize the school board to use that sum of money for grading the West Side school lot. A small amount has already been expended to bring the grade of the school house lot up to that of the land sold and if the amount received for the land be expended for additional grading and improvement the school lot can be put in good condition.

The need of more school rooms at the Depot village is recognized by all who are acquainted with the conditions now existing there. In order that the matter may be presented to the district and definite plans be offered for its consideration, a committee has been appointed by the school board to prepare plans for providing more school room and to ascertain the cost. This committee will present its report to the citizens of the district at the school meeting for their consideration.

The seats and desks in the rooms of the West Side school house are too large for the pupils now occupying them and should be changed. The amount of money allowed for repairs is not sufficient to purchase new furniture, after making the repairs that must be made on some of the school houses in the district during the coming year. Therefore an article has been placed in the warrant to see if the district will raise money for refurnishing one of the rooms. One hundred and fifty dollars would be required for that purpose. When more school rooms are provided a larger appropriation for the support of schools will be necessary and a special school tax of \$2,500, is recommended which, in the opinion of the school board, will maintain a school year of thirty-six weeks.

Thanking the citizens of the district for their generous support and hearty co-operation we present the following financial support.
